

Colorado State Thespians Production Number Application Form

Interested in presenting an opening number on the Main Stage at conference 2006, here is the information you will need to provide us, so that your school can be screened for the Main Stage. (One Acts are registered through the Colorado Individual Events Showcase process inside the Troupe Registration on-line at www.cothespians.com.)

Shows are selected on a first-come-first-serve basis. CST only screens shows in the fall of the current academic school year, CST selects two shows from the academic educational theatre arena, both high school and college shows will be screened until two shows are selected for the conference. One 20 minute outstanding production number is selected for the pre-show at the Opening of the conference. For consideration for screening, schools must be registered for the conference with all cast and crew members listed in their registration.

Performance Venue: Colorado Convention Center, Auditorium Stage, a proscenium theatre 100' * 25' to the cyclorama. There is a large apron that adds depth to the stage; except for the Thursday nights opening ceremonies this area is available for your production, unless set pieces can not be moved relatively quickly during the 15 minute intermission. There is an underground three semi-truck loading dock, numerous dressing rooms and a green room available Stage Right. Each school is given a load-in and set-up from 9 a.m. to 5 p.m., this includes rehearsal time, and additional time may be booked and paid for by the individual performance groups. CST uses Union technicians, thus Union breaks and rules apply. Nothing can be attached to the stage or walls at the Convention Center, sets must be self-bracing. In addition to this form schools must submit a lighting plot with all specials noted and a ground plan of their set. We do provide basic sound equipment, but additional UHF microphones are up to the individual school. Royalties must be paid by the school performing, Royalty waiver forms can be found at EDTA.org.
